

Urgent Prayer Request: Please Pray for Nancy's Life to Restored!

It happened today (19/10/2021) at around 12:00 PM.

Nancy, Nimbine and I were having our lunch in the kitchen. While eating, Nancy held her head and walked out of the kitchen leaving Nimbine and I in the kitchen without telling us what was going on with her.

After a minute or two I heard a strange noise coming from the living room, while I was feeding Nimbine. I left at once to find out what was happening and shockingly I found Nancy vomiting all over herself lying on the sofa unconscious.

I called Berea Bible Institute staff immediately for help and we hurriedly took Nancy to the nearby Hospital. At the emergency room nurses and doctors quickly checked and after thoroughly assessing her condition, Doctor reported that one side of her body is not working. She concluded that Nancy had a problem inside her brain. To find the problem, Doctor said that they need to scan her brain.

Doctor then referred us to the big hospital (Nakornpim) in Chiang Mai city, where they have the the scanning facility. The emergency ambulance took Nancy and we followed.

After the scan, Doctor reported that there is bleeding inside Nancy's brain. Doctor then suggested that the only option for here survival is to operate her brain and clean the blood inside. I signed necessary papers for operation and it took 2 hours for the operation.

After the operation, Doctor reported that he was able to clean the blood. He said that the bleeding was too much and so he will monitor her after every one hour at the ICU.

Right now, Nancy cannot respond and move. Her heart is still beating but she does not have strength to breath by herself so she is on ventilator.

The cause of the bleeding inside her head is not yet revealed by the doctor. It should relate to her High blood pressure and hypertension. Nancy has been a hypertension person at the time of giving birth to Nimbine. She has been on dieting and exercising, which helps her to keep up with her health.

Nancy is now at the hospital (ICU) and her life is in the Hands of the Almighty God.

As I am praying with tears and brokenness seeking the LORD to give my wife, Nancy a second chance to live so that we can continue to serve in His Mission, which we have committed our lives to. I also invite you to pray with me.

Pray for Nancy's life. Pray for Nimbine and me during this sad and unexpected time and situation.

Thank you and God bless.

Paul (Nancy's husband)
